»» CSE "FACHGRUPPENRAT"

We are pleased to announce that a CSE "Fachgruppenrat" has been founded in spring 2024. The "Fachgruppenrat" (FGR), the student council of CSE, was co-established by Baki and fellow members of CSE. Currently, the first board consists of five members.

Their vision for FGR@CSE is to be enabled to provide support for the students, build community engagement and encourage collaboration.

Since CSE is an international program, the FGR aims to provide support immersing it's students in German culture to help integrate better. Further, FGR@CSE wants to promote a strong alumni culture, which will help the current students not only in their career journey but also for their personal growth. The FGR will also serve as a hub that can be used for academic purposes as well as social events. FGR intends to facilitate the formation of study groups to promote collaborative work, foster a supportive learning environment and, of course, to make learning fun and interactive.

»» DAAD PRIZE FOR GAGAN

The official award ceremony took place on 8 February. Gagan received the DAAD prize for the "Best International Student". Professor Henning Wessels from the Institute of Computational Modelling in Civil Engineering had nominated Gagan for the DAAD prize.

Congratulations on this award!

[You can find out more about Gagan's Journey in Germany here.](#)

»»» "DEUTSCHLANDSTIPENDIUM"

Seerag has been awarded with the "Deutschlandstipendium" for the 2nd time in a row. Congratulations!

Interesting Fact: At least one CSE student has been awarded the "Deutschlandstipendium" since 2011.

"Deutschlandstipendium" is a program of the Federal Ministry of Education and Research (BMBF). Private individuals, companies and foundations can donate to the program, and the BMBF will match their donations. In addition to financial support, the program also offers opportunities to support students' ideas and to network.

»»» BROCKEN HIKE

On March 27, the CSE students hiked up the Brocken. They traveled together by train and bus from Braunschweig towards the Harz Mountains. Starting from Torfhaus, the group hiked up the Goetheweg in sunny weather.

Once at the top, everyone was rewarded with a view of the still snow-covered Brocken. The group enjoyed a picnic lunch together at the top. After a break, the group headed back along the trail to Torfhaus and then back to Braunschweig.

»»» COMPANY TRIP: SMARTMICRO

"The entire excursion was really good. I liked the fact they also gave us a live test drive in their facilities and showed us how the radar systems work in real-time autonomous systems. They also explained the basics of radar, their products, and application fields and made their presentation based on the audience present."

This was the feedback from our students for the Smartmicro company trip on 8 December 2023.

About Smartmicro: Smartmicro is a company based in Braunschweig that designs, develops and manufactures sensors for traffic management and the automotive industry.

SAVE THE DATE:

- »»» 08. June 2024: Graduation Ceremony
- »»» 19. June 2024: CSE Sommer BBQ

INTERESTED IN HOSTING US?

- »»» CSE organises company trips for students 1 to 2 times a year. Please contact us if a company trip to you would be an option.
