Classroom management is a cornerstone of effective language teaching and learning. With today's EFL classrooms being more diverse and inclusive than ever, you have to be able to manage complex language learning scenarios.

Join us for an exciting and hands-on workshop designed specifically for future teachers of English as a Foreign Language.

You will learn how to

- use the first few minutes of class to your advantage
- introduce rules and procedures as well as rituals
- maintain learners' attention through warm-ups and energisers
- deal with challenging situations.

There will be plenty of opportunity to try out different strategies and methods.
